

WELCOME TO 2019 SUMMER CAMP

Unit Nurses

Brittany Coon • Pat Binns • Abbie Goodman
Jacqueline Scott • Kari Overstreet • Kaitlin Campbell

Night Shift Nurse • Casey Kalica

- ▶ We allow campers to keep “rescue meds” on them or a counselor with them as long as the meds are clearly labelled with camper’s name, cabin, and color. Rescue meds include: EpiPens, anti-epileptic (Diasat), Albuterol inhaler, or Benadryl (in extreme cases).
- ▶ Campers receiving scheduled home meds will have those meds poured and double checked on Sunday, meds will be administered by medical personnel and documented via Campsite throughout the week, mostly at meal times; Practice 5 rights of administration with every med delivery.
- ▶ PRNs: many of our campers will become fatigued/sore throughout the week. If a camper asks for pain medication for HA or other muscle/joint pains, and they have a PRN on their MAR, go ahead and administer and document in Campsite.
- ▶ If a camper asks for a PRN, and they do NOT have anything listed on their MAR, first assess their forbidden OTCs and allergies; Notify Unit nurse, Medical Director, or Nursing Director of intervention, and create log.
- ▶ During this week, we encourage you to be present with your campers for high-risk activities (i.e. barn, waterpark, zip line, tower, etc).
- ▶ Use GENERAL precautions (gloves for anything that is bodily substances).
- ▶ Please be at the Body Shop 10-15 minutes before meals to gather up medications, iPads, and supplies for mealtime med pass.
- ▶ When you head to bed for the night, please check in with your Unit Nurse, just so we can say ,“Thank you and goodnight.” ;)

RHEUMATOLOGY/IMMUNOLOGY/ GENERAL SESSION

- ▶ Many of our campers this week will have time-sensitive medications. Closely monitor “off-time” medications in Emar for these meds
- ▶ Utilize the “off-time” board in the Body Shop and check off off-time meds as they are administered.
- ▶ No kissing fish for any immunocompromised or transplanted children.
- ▶ If a camper asks for a heat pack repeatedly, we have electric heating pads that can be utilized as needed.
- ▶ Many campers find the walking on camp to be extremely tiring. There are extra wheelchairs and wagons in the Body Shop. However, we have a limited supply, so encourage campers to use them only on as-needed basis.

▶ Rheumatology

- ▶ When you check campers in, make sure to ask about their pain regiment:
 - Where they hurt, when they hurt, and what their triggers are
 - What is their pain regiment? (1st, 2nd, and 3rd line treatments)
 - If they did not pack pain medications, ask if they take Ibuprofen or Tylenol and what doses they would take in the event of pain (put this in their MAR or in a Note)
- ▶ We’ll have a “pain board” in the Body Shop:
 - When you give a PRN for pain medication, please put the camper’s initials, cabin, medication, and time on the board as this will help us monitor campers who might need additional treatments
- ▶ Our campers may find the camp schedule tiring. If you feel that a camper would benefit from an additional rest period, earlier bedtime, or later morning time, please talk to your Unit Nurse, Emily, or Courtney. We’ll try and make some arrangements.

▶ Immunology

- ▶ Please report any fever to Courtney immediately.
- ▶ Encourage hand washing.
