Hello everyone! Welcome to Operation: Let’s Play. I hope you are ready to laugh and play with us today as we take off into Out of This World week here at Victory Junction. The activity for this week is a water bucket toss! Below you will find all the information that you need to get this set up and have some fun with in your own back yard.

Safety Tips:
While playing this game please remember to be respectful of everyone’s choice to play or not. If someone decides they do not want to get wet then do not pour water on them. Be safe about things that cannot get wet, such as medical equipment. Don’t splash the water directly into anyone’s face.

Materials:
- Buckets
- Whiffle Balls
- Water

Alternative Materials:
**Buckets**
You can use cups, bowls, pots, whatever you can find that will hold a small amount of water

**Whiffle Balls**
You can use ping pong balls, tennis balls, any other small ball that will fit into your bucket

The Set Up:
To set this game up you will need to fill up the buckets with some water. You can have as many buckets as you would like to put out. Then place the buckets scattered around an open area outside. You then will need to decide where the throw line should be at in comparison to the buckets.
Let’s Play!
To play you need to decide who you are competing against. The two of you will then go back and forth, each taking a turn to stand behind the throw line and try to make a ball into a bucket. If you make a shot then you get to dump that bucket of water onto the head of whom you are playing against.

Challenge:
Here are a few ways that you can make this game more challenging:

- **Move** your throw line **back** and make your shots from **further away**.
- Put the buckets in chairs or **on top of other things** to make them **more of a challenge** to hit.
