

Soundtrack to my Life

We don't know about you, but we love a **good music playlist!** Have some fun and create your **ultimate Road Trip USA playlist**, that expresses **who you are!** Here are some **tips**, to help you along the process!! You can do this alone or grab ideas from family members, medical staff members, or friends!

Step 1

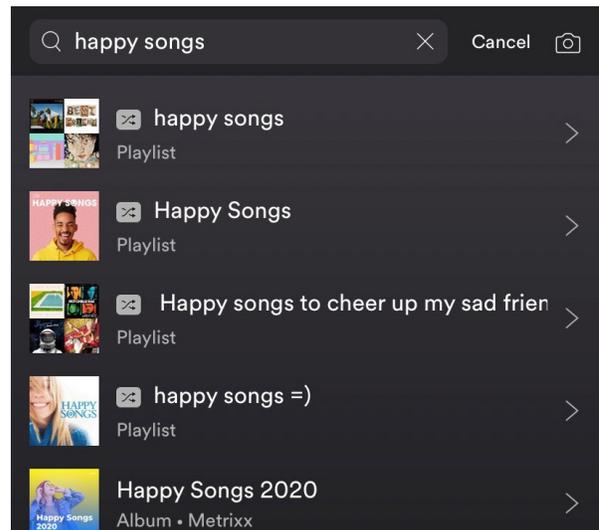

Download a **music app**, similar to the ones below.

*If you don't not have a device to download these apps, you can search and play your favorite songs through **Google or YouTube.**

Step 2

To get you started, think of some things that make you **happy**, songs you like to **work out or dance to**, things that remind you of **your family**, do you play any **sports**, or your **favorite genre**. You can search for those in search bars, and get different playlists, that can inspire some of your song choices. Here is an **example** of ours!

Follow along with us this summer on social media! **@victoryjunction**

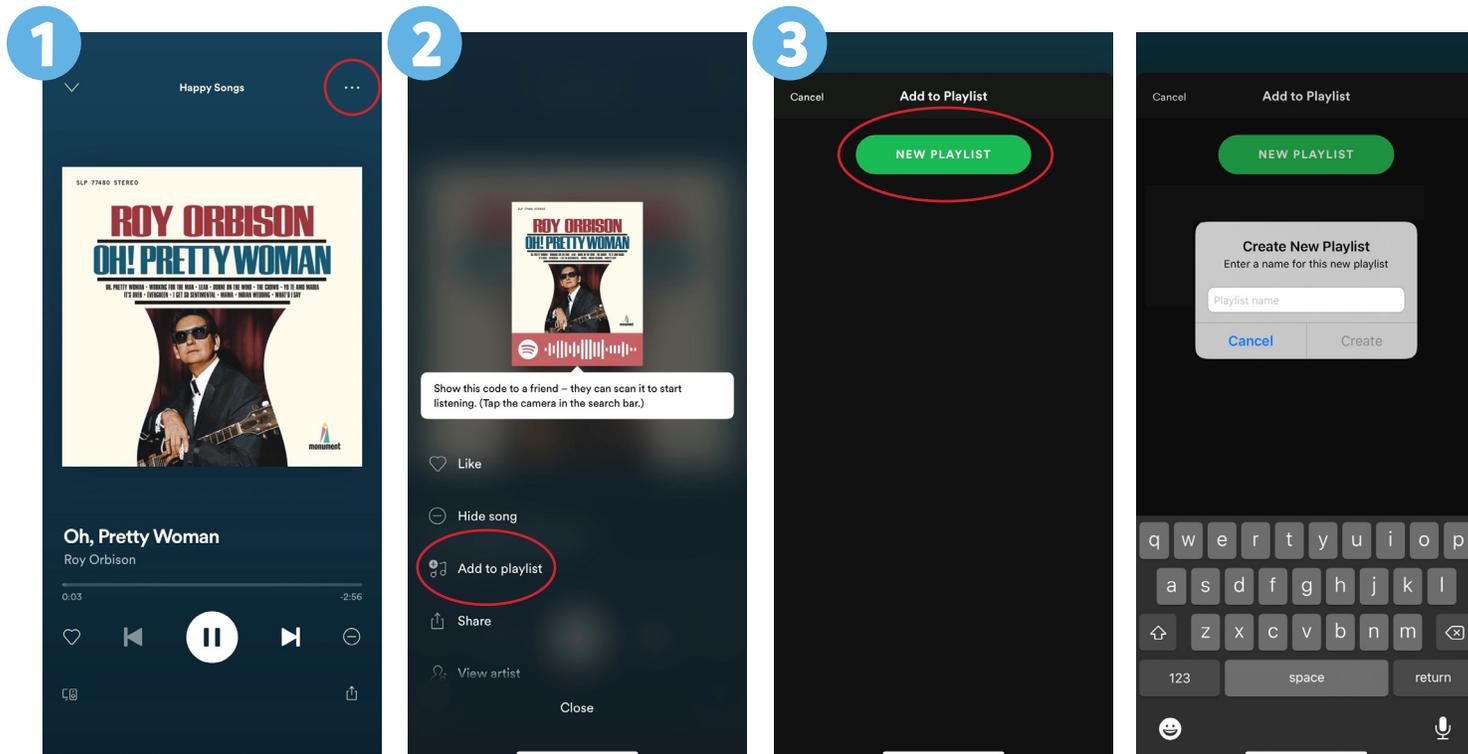

Share photos and videos of your camp cheers, dance moves, games and crafts, using the hashtag **#VJatHome**

Step 3

When you find a song that you like, you'll want to **add it to your playlist**.

1. There will be **3 dots (...)** in the **top right corner** of the song playing. When you click them, this **list of options** will pop up.
2. You will then want to click **"Add to playlist"**
3. You will Select **"New Playlist"** and give it a playlist any title you want.

4. **Repeat** the steps above, for every other song that you find!

Some other **helpful tips** to help you find some playlist inspiration- both **Spotify** and **Apple Music** have radio's or popular playlists that you can pull songs from, and possibly learn about other artists or songs you may like.

Once finished, **play your playlist** through a phone or speaker, and have yourself **a fun dance party with your family and or friends!**
