► August 2-7

*Please note, these dates differ from the advertised camper session dates to include volunteer orientation.

Summer POSITIONS

Cabin Counselor Volunteer

► Volunteers take care of the daily needs of up to 8 campers working alongside summer staff. This position requires being actively involved in supervision, guidance, and encouragement of campers by building working relationships with the kids and staff to ensure that a high standard of care is maintained.

Program Counselor Volunteer

► Program volunteers will be trained to assist in a specific area. When your area is not open, you will be assigned to a cabin and help counselors with the campers in that cabin.

Stable Pal - Assist as needed in the stables. This includes leading campers on horses around our arena, participating in animal adventure, grooming, cleaning stalls and general stable duties.

Dining Hall Pal - Assist the Kitchen Manager/Chef with various duties, which includes setting up and cleaning up after each meal.

Transportation Volunteer

► During the summer, we need assistance transporting our campers and volunteers to and from camp! Some individuals depend on reliable transportation to ensure that they can join us on-site and experience the magic of Victory Junction. Our transportation volunteers are required to attend an on-site driver training session prior to the summer, which provides the opportunity to 'test drive' and tour our accessible vehicles ahead of time!
